Andrew Brush / Android Authority Authority. We firmly believe the Android war vs iPhone should be dead for a long time now, the ecosystems of the two devices are still very distinct from each other. A new development project, however, has a plan to bring the two closest systems making it easy to get Android on the iPhone. "Project Sandcastle, as is known, has a new website that offers you explicit instructions on how to get Android 10 on a handful of iPhone. Starting now, the list iOS compatible devices is quite short, with iPhone 7 only, iPhone 7 plus and the seventh iPod touch for iPod working with hack even, then Android on an iPhone will be severely limited for now. Basic functions like the camera, Audio, cell phone connectivity and bluetooth does not yet work. In other words, don't plan the flashing Android on an iPhone 7 Plus and use it as a daily driver. Gentili Android and Apple fans: in 2020, we can permanently end the I hate? However, the Sandcastle project has promised. If you love Apple's hardware, but you can't use iOS you could, in the future, have a viable option to exchange it for Android. Conversely, if there are options you love for Android that The iOS does not offer, you may also perform any exchanging ahead And back between the two operating systems on a single device. It should be noted that it is not the first time "Project Sandcastle" has seen Android on an iPhone. More than ten years ago, a couple of developers had Android working at the first iPhone. If luck would, those two developers - David Wang and Chris Wade - are part of the Sandcastle Team. Se project want to try Android on an iPhone and you have compatible hardware, you can check the Sandcastle project here to give the beta a shot. NewsAndroid, Apple, Apple iPhone Photo Courtesy: Rick Maiman / Bloomberg / Getty Images is always exciting when you are ready to update your smartphone, and if you are a fan of Apple iPhone or Samsung Galaxy, then you probably wait with great anticipation to see what You will offer every new smartphone. Although the releases of updated and new models in a few months.
