It's not just "Wonder Woman" a culturally important film For women through the globe, it is also retracted as a test for female directors in Hollywood. The "Wonder Woman" director Patty Jenkins is the first woman who had the opportunity to direct a tentpole summer superhero movie. "The possibility of experiencing this film with other women - don't worry about the Male Wonder Woman's Body or The Pressure Men have put on this film to justify the presence of women in this genre - it's a gift." Carly Lane claims, though, which should not even pay attention to the dispute: "" Wonder Woman 'represents an important point of reference for superhero films. It deserves to be celebrated, not derailed by a sexist narrative. "" Wonder Woman "has, so far, outperformed" steel man "and" Batman V Superman: Dawn of Justice "in the markets where it was already released. The time will tell if" Wonder Woman "beats his superhero companion DC overall, but given the first ratings and thirst for a female guide in a film like this, it seems a definitive chance.
