Name that song app for android

Android has been around for more than a year, and at that moment the developers whiped some large apps. Whether you are a new Android owner or a pro looking for new tools, these 10 fantastic and free apps belong to your Arsenal.Photo of Lwallenstein. To jump immediately above the apps that are so common, universal, and well replicated on the iPhone or other mobile platforms that a user with a need probably we can do - Facebook, Yelp, Evernote, remembers milk and endless twitter clients, Widget and app. We also skipped on Google's ordered apps, like Google Voice, navigation and glasses, which are (or will) included the standard on new Android phones. Instead, we are aiming to shine a small light on apps that can easily offer excellent functionality for those who download them Searches, off from some comments and emails Andro-savvy.10. Layarin Some ways, this is a vote for the potential of layar as much as the practical application. Walking through your phone and see Wikipedia's subjects, apartments for sale and what Twitter users have delighted through your phone is a rather accurate thing, and potentially useful when you're looking for things to do in a new city. But as Layar continues to add new levels, and how the camera and mobile processing power continue to improve, Layar could become much more interesting than already. One thing worth remembering is that if you don't like the view of the 3D camera, or as the appearance of yourself while you use it. Layar can only show the points of interest on a Google type map. Anyway that you use it, it's an intriguing aspect to what is happening around the corner. (Original post) Phone / Android: Layar, the mobile app that overlap the data signals on what the phone video camera sees. Å € à,~ | Connect more. Listening to the last update, we couldn't really call to listen to a king among the podcast apps ... had some ltrkensome bugs, one of them is the loss of episodes and sometimes subscriptions. Now, however, your Google app does a great job not only to find audio content, but Export your subscriptions to manage in Google Reader, guaranteeing a full feed backup and easier recovery of past episodes you want to go back And listen. If you need a fine fine grain podcast control, Acast test, but listen to most. (Original post) The Android market continues to grow, the new phones are apparently coming every bearer, but finding the most8 laws. AnyCutyou You can drop a lot of things ordered on your home android home screen, but you can't get a click with one click all in the settings and in the extras of your phone. Anycut does not have an excellent interface, and it may require some process and error before arriving exactly what you are looking for. Quite soon, however, you will have access to the deeper guts of your settings, then switch forward and turning off and turn off, enabling location services and other tricks are easy to extract. (Original post) Click to see you have already seen our practical review of the new Google mobile operating system, Å € à,~ | Connect more. SecretSTHERE is not the synchronization of the browser on AndroidÅ € à,~ "still (C'Mon, Mozilla, salts on that Firefox Mobile!). Meanwhile, there are secrets, a well-safe caveau, compatible with compatibility compatible with Password for all your passwords. It is not so difficult to export your passwords from the desktop or laptop to your SD card, and with the search to Full-Text finally implemented, the secrets are much more For those moments oh-shoot-what's-that-username-again. (Original post) Only Android: Today Google has announced the release of the secrets, a secure password manager for AndroidÅ € à,~ | Connect. FreeThe As Desside tailier at Android multi-tasking is that at times, some apps can become unexpectedly become magni of memory or bandwidth or bring the phone with them when they lock. Few apps provide a direct and easy "chit" option, however, and sometimes you can't get to the To close it. Enter taskiller, a free app murder utility that works from its standard icon, or as a series of numerous widgets you can add to the home screen to save the system with a single click. The free version serves advertisements and lacks some advanced features, but generally serves the needs of anyone who tires you to need to actually reset the phone just to clarify space for, know, phone calls and such. Note: This app must be used as more than a last resort than the regular maintenance tool, killing processes and Willy-Nilly apps can disable alarms, kill background synchronization and have other non-intentional consequences.5. Slidescreenyou uses your Android smartphone differently from your desktop computer. Don't work with files and shortcuts, so that check-in on data flows that interests you - E-mail, text messages, Facebook and Twitter, chats and the like. Slidescreen replaces, or simply increasing, if you wish, the main phone screen, creating line after the message line and feed. Slide the central information bar upwards and down to look more or less of your items, scroll right to dismiss items like beds and finish having all your data on your hand at once. Slidescreen also replaces the standard application tray, offering 8 slots to put your apps most frequently accessible and tuck up all the others in a rolling bridge below. It's a total makeover for your phone, in other words - one that could simply make you fall in love with the concept of mobile data. (Original post) Android: The default home screen in Android is fine and for the most functional. Slidescreen, atÅ € à,~ | Connect4. Shoperokay, at the beginning we were rather skeptical of the application of Google's Shopper, since it only seemed a mashup of his Google glasses and Google's smart-smart apps like Shopsavvy. Then we actually used the shopper, and we were amazed both from what is accurately considered both barcodes and simple hedging shots, and how much it worked very quickly. It turns out, according to a developer who appeared in this week in Google, shopper is actually loading the image data on Google servers as it captures and decodes the barcode on the phone. The speed for the speed sake is beautiful, of course, but it's nice enough not to have to stand in front of a display of a book for a whole two minutes, waving the phone around a group of books you are trying to do the competitive price. The buyer answers the question "I can buy this cheapest", and responds quickly.Android: Google has already got got glasses for visual search and the Google Shopper's mobile site can be run ... Read more. PDANETPDANET is the simplest way to use your phone's net mobile connection as an Internet Makershift access point, for those hard-up situations when you just need to get somehow online, anyway. The free version always offers basic Internet access, but limits secure site connections after a trial period. The paid version is not cheap (\$ 30), but it is the simplest of the three ways we know how to tell an Android phone. For the cost of nothing, we will take the basic website of the website - because, hey, I can't reach Gmail on your phone if you really need it? (Original post) There are three ways to rent your Android phone and get the Sweet Internet love also where there is ... Read more. Wavesecurethis is only free until March 31st, then make sure you jump if you think there is also a remote You want Killer security tools at your disposal. Wavesecure Not only backs up your contacts, SMS messages, photos and videos and other files on the developer cloud for the next restore if your phone is lost, but can block a phone when it blocks it for a while, identifies a phone With the triangulation of the GPS or text message (seriously), and, as a final option, pull out a total and complete remote cancellation if it takes everything is lost. Powerful tranquility, especially for the price. (Original post) Android / Windows Mobile / Symbian: If your phone drops or is raised, wavesecure, currently ... leader more. Astro File ManagerThis is one of those app app Hope has a bit of attention, if only to be purchased from Google or otherwise integrated into the base phone software. Astro File Manager does a great job to allow you to navigate the files on the SD card and the internal memory accessible, surely, but it also has your own integrated killer task, backing up applications, can send files as e-mail attachments (not everything Easy or intuitive from the mail client, for some reason) and much more. It is the Leatherman of Android utilities and a must-have on any serious Geek phone. To each of them, obviously, but we would like to hear which Android apps consider crucial to your phone in the comments. We tend to free, but if you have found a cheap app that is worth a few dollars, our loving Android readers and developers, they would probably be happy for the referral. Just like many of you there, I spend my day running from one place to another, trying to get a thousand things done simultaneously. Sometimes, though, there's just too much stress. So, I like to make everything better by connecting to some loved songs and let the music wash away all the problems. Oh yes! Whether it's the metro to work, jogging in the park, or simply relaxing at home, music is probably the best way to help us get into a good mood. If the type you need to have music at your fingertips at any time, then rests easily, because Android Authority has covered you! Also, take a look at some of the 2012 best apps for Android! Å, Android offers a multitude of apps dedicated to music lovers, so you can listen to your favorite tracks with a few touches and swips. Whether you are a clean patient who organizes music according to the artist, the title of songs and the genus (in alphabetical order, obviously), or you like to mix the songs until you find the perfect song for the moment, Android really offers Everything you need to enjoy your musical collection. Cross some of the best Android apps for music lovers. Shazamfor many Android lovers outside, Shazam is the app when it comes to musical discovery. Playing 10 or so seconds of virtually any child, connects to the cloud and find the melody for you. If you've never tried it before, you absolutely have to do it now. You can simply hold your Android device to the music and let Shazam works the magic of him, even going to find the texts for you. It also allows you to share your favorite music tags on Facebook and Twitter. If you want to take a further step forward, you can search for music videos of your songs on YouTube or download the most recent traces from the Amazon MP3 store. Shazam will help you stay updated on your favorite songs and artists, without ever breaking a sweat. Absolutely amazing! Shazam for Android on AppBrain There are moments when your hand-picked song list has not just won - t to make the cut, and try to have a new stock of tracks delivered directly to your Android device. Well, with the digitally imported radio app, you will be able to choose between 37 different radio channels, everyone dedicated to playing the most older and more recent songs from all kinds that you can imagine. No more mixing around the songs available on your device € for a song that you haven't listened to a while. With digitally imported radio, listen to songs you didn't hear at all! Radio Imported digitally for Android on AppBrain Soundhound Have you ever experienced hearing a snippet of a song, then having blocked him in your head for the rest of the day without ever discovering the artist or title of the song? If you can't do something similar, try remembering, but it often can't, after the fact. A lot in the way the Shazam functions above, It does it too. With Soundhound, you will never have to worry about suffering from UIS (unidentified song syndrome) never more! You can practically input something related to the song in this app - a 4-second snippet, a single opera line, or even just your voice that coil the melody of the song Å € à,~ "and this great app will identify the song for you. No more About on the internet looking for Å € à,~ à "the song never again! You can identify an unlimited number of songs with the soundhound, as well as sharing them on Facebook or Twitter as soon as you find them. Also, the commentators on this site and the blogosphere claim that this works much better than Shazam, but we will do it for you to decide. Let us know! Both are fantastic to have, though. Soundhound for Android on AppBrain There are many people outside who love being meticulous of their lists of songs, and if you are one of them, Doubletwist Player is a wise app to have in your Arsenal! This large app is not only automatically organizes your songs depending on the title, of the artist and like that, but it can also classify them based on most games or their age. Of course, you can also organize the songs based on your criteria. DoubleTwist Player also automatically searches for the online album cover. This function is in pure gold, people. Å, Download this immediately if you have more than a few hundred songs and you want to be able to organize them in a way that allows you to access the tunes you instantly. DoubleTwist Player for Android On AppBrain Mixing Media Player is the best app for those who simply want to depose and let their Android device make heavy lifting (that small device in hand is actually packing a serious power). Whether you want your song the identified texts, your cover has found online online or your lists of organized songs, this app will surely make everything above, and much more. If you are ever asleep while listening to music and found your device emptied the next day, don't worry more, since mixing has an automatic shutdown function that turns off the reader at a preset moment. You can also put your device on a music block so that you have never accidentally won tracks or turn off the app while you do such crazy dance moves for which you are famous. Mishzing Media Player for Android on Android Sometimes, your artistic side only wants to go out, and with the ring producer, you will be able to slide your creative juices. If you ever wanted or customize ringtones or notifications on your Android device (or create them from scratch), the ringtones manufacturer has covered you. You can customize each component of the sound coming out of this app, from the length of the piece, to the audio format, and those thin shades, such as bass and voice. For the customizers of their devices, and for those who do not like to pay for ringtones, this is a must. Ringtone Maker for Android on Appbrain maybe one of the best music apps known outside, Winamp allows you to easily synchronize your music on your computer. No problem on being a PC or a Mac user here; Winamp is supported by both operating systems. Complete with many track arrangement options and even a device lock device (you can play, pause or mix music while the device is locked) WinP offers a complete versatility when it comes to use and functionality. Seriously recommended for those looking for a different music player. Winamp for Android on AppBrain Sometimes, the best things arrive in small packages. With the Audiomanager widget, you can adjust the volume on your Android device simply by touching the widget. You don't need to find the app to adjust the volume settings anymore! You can also customize your audiomager with dozens of skins available, to give your device a unique appearance. Audiomager for Android on Apprbrain occasionally, we have to let that musician in the United States come out and rock, and with the Xpiano Android app, you can do it. This large app offers ten different virtual tools, to 4 different octaves, so you can choose which beautiful music to do. It also integrates Multitouch controls and a recording and playback function. Bust out that interior Mozart now! I guarantee this is a hot when you are with people after some. Xpiano for Android on Apprain This is for you aspiring composers and DJ DJs There is an ok to maybe not really. But if you're hooked on bassy beats or high Tippydy touch, so you can accelerate the onset hearing loss even faster! But more seriously, it's great to be able to modify your tracks as you like. You can change the music on your Android device with this app, allowing you to completely customize the sound and quality of your tracks. Whether you love that deep down, bassamento of the heart, or do you want to modify for 11 presets of music in stock (such as rock, Latin or jazz), the choice is all yours. Equalizer for Android on AppBrain So, there are music lovers! A list of the best music and music apps available on Android. Whether you're waiting in line, or simply browsing to work agghiacciando your favorite spots, be sure to let your Android device will provide you with your favorite songs. Has your favorite musical app was lost? Let us know in the comments and check them! Appsapp reviews, Best App, Apps Music Apps
