Instruments is a community for people who like to do things. of non-hatched egg monsters raises in formidable (each with a unique skill set) and the ability to reproduce and create new hybrid species, practically every player in this robust RPG commands their strength of à © Lite. Playable in a web browser through Facebook or in Android and iOS apps, Monster Legends allows you to put your army of beasts specially trained against computer-controlled enemies and millions of players around the world. While progressing in your role as Monster Master, you will improve a paradise of personalized monsters in which your creatures reside in specially realized habitats. It is on this island where you feed your monsters, they facilitate their training and reproduces them between heading to the battle or undertaking missions and other mini-games to get experience and precious loot. Available in several popular languages and free to play, Monster Legends turning fights are similar to traditional RPG battles and require strategic mind and careful planning when reaching higher levels. While your team grows in force, so it makes the ability to take part in a gratifier-versus-player action. With new monsters, articles and progression paths added weekly and a reasonably in-depth game engine, Monster Legends offers long-term fun for those who choose to commit. The legends of monsters can be played on Or through an app. No matter what method you use, the process is simple and you will be active and working in a few minutes. When you open the game for the first time, Pandalf, the master of long bearded monsters, greets you. It gives you a step-by-step primer on how to develop your island. Step 1: Building a habitat: Pandalf guides you through the process of purchasing and creating a monster: After having it Habitat on your island, the only type of habitat available for level players 1. Step 2: Creating a monster: After having it Habitat, creates your first monster by buying a Firesauri egg and waiting for him to hatch. Once hatched, place your new monster in the fire habitat. Step 3: Feed your monster: your firesaurus could be nice at level 1, but it is not very useful in a battle. Pandalf guides you through the feed so that it earns points to experiment and it becomes stronger. Step 4: Building in Farm: Monster Food is not free, so build a farm on your island allows you to cultivate food. The first element you produce is the blue lizard tail (Yum!). It is at this point where the introductory tutorial ends, and Pandalf lets you play alone, educate yourself to expand your island with more monsters. It is never far away, by clicking or tap the Objectives button guides you through the recommended steps, which include the combination of fire with nature on the reproductive mountain to create a Greenasaur hybrid monster. While progressing, your island and your army develop to where you are ready for your first battle, which is when excitement begins. Over time you will become more comfortable with battles, in the end, working up to the PVP mode. In the PVP mode, you find yourself and fight against other players to climb the rankings. Those who prosper themselves in this part of the game participate in legendary championships, where the awards and prizes are very sought after. You don't have to integrate the legendary championships, where the awards and prizes are very sought after. You don't have to integrate the legendary championships, where the awards and prizes are very sought after. your status and other updates in certain laps throughout the game guarantees additional gold, the treasure, experience points and new monsters. The legends of the monster are classified 9+ due to occasional cartoon violence, which means that children less than 9 years old should not play. Although he has a younger atmosphere in terms of animation style, some of the advanced gameplay combined with the vast compendium of creatures, articles, abilities and statistics also attract adults. There are global and in-game chat formats, often needed for PVP, which exhibits children at a level of communication and exposure that you may not be at ease with a parent. It is the case of practically all the multiplayer games, but this does not make it less potential threat. If your child has a Facebook profile, the direct integration of the game with the Social Media site could represent a certain danger if they connect with the wrong people. However, that aspect is something that a parent can check through Facebook, so there is less risk there. Keep an eye on your child's online activity, including the legends of monsters. The goal is not to scare you away from allowing your children to play the legends of monsters. However, there are in-game purchases available. Make sure you manage in-app purchases so that your children are not buying gems or other goodies without your permission (or you may be for an unpleasant surprise next time you look at your credit card declaration). Thank you for letting us know! Tell us because! Monster Legends is a pleasant game, and is more fun when developing a successful strategy and becomes attenuated to it. Follow the suggestions and tricks in this monster legends guides to become a real monster master. Just as a chemist has an intimate knowledge of the periodic table, a player of legends monsters must understand the elements of the game and the strengths and weaknesses of each one. Everything in the game revolves around these elements, from which habitat build for a particular monster to the temple that requires advancing the level of 10. Our book breeding guide of the monster is classified by element, from fire through the beginning levels and follow the predefined objectives, corresponding to single element and hybrid monsters with their appropriate types of building is an important competence that you need to perfect. A well-structured group often determines if you leave the triumphal battlefield. Monster Legends offers a unique feature that is not available in most fighting, both real and virtual. You can add or remove team members from the fray give you the best chances against a particular set of enemies. The choice that monsters to be used at a given time should be based on their profile page, together with relevant details like their effects in battle. Understanding a monster's basic skill set is important before taking a fight. Their special abilities can win a battle when used correctly. Special skills are present at the bottom of the profile screen. These abilities can win a battle when used correctly. protect different team members simultaneously. Perfecting these ability to know and know when and where to distribute any ability is a key survival ability in Monster Legends, it is clear that there are many interesting things that can be done by your starter island. While it can be fun for freestyle out right of the gate, the structure is a good thing until it has established. You can deviate from the path of how you become more comfortable. When Pandalf greets you and guides you through specific activities, listen to it. The little hairy boy is an expert monster and knows the stuff of him. Even after he takes a back seat, the lens button is almost always in sight. You need to press regularly. Following the tasks indicated for you in order of presentation can help you progress at higher levels and provide a more satisfying game experience. As for the war it is interested, it's also good to follow the adventure map as designed. Hopping from fighting to fight progressively allows for valuable experience, while to get used to different types of enemies and battle strategies. It is also possible to accumulate a ton of booty and XP (experience points) is, along the way. The only way to fill out a strong and diverse bestiary is through the magic of breeding. Match two creatures together to produce a rare monster, EPIC, or Legendary is an infallible method to own more powerful beasts of the game. A lot of breeding in Monster Legends is a crapshoot, and often the result is what they hoped. You can't be afraid to experiment, though, and the eggs can always be sold to the store, if you're not satisfied. The result of sending two monsters to the mountain breeding is anything but of course. However, there are guidelines to follow to give you better possibility to the desired hatch. In the warmth of the battle, many game players' legends focus on offensive and defensive capacities. They tend to forget the useful inventory they are carrying around. Be obtained in the victory or purchased by the massive selection of the store, these elements can give an advantage over the competition. Before a fight, know the purpose and effect of each element you have, and be ready to The elements when necessary. It doesn't matter if it is a roll of healing or a dynamite candlamote, your inventory is as important as the ability of your monsters. There are many ways to get gold and gems in Monster Legends. These include receiving a size to win a battle or loot gain from your monsters in their habitats. You can also buy virtual money with real to do it. In most cases, you will receive gold or gems as compensation. Another way to fill the speakers is inviting friends and family to play. To start, build a recruitment tayern on your island. The tayern can be purchased in the shop buildings section for the low price of 500 gold. Your game account must be connected to Facebook to send invitations from within the tavern. In addition to gold and gems, successfully recruiting new players can earn free food and monsters. Without adequate sustenance, your monsters cannot rise level and languam in Newbie areas. Food is also needed to update habitats and other types of buildings to certain levels. You can earn food through daily bonuses, defeating computer-controlled monsters or stealing it from other players during PVP battles. It can also be purchased in the shop with gems. Your monsters require a lot of food, and these methods do not produce enough to keep up. This is why you need to build and keep farms on your island. This allows you to grow your crops. The farms are purchased in the game store. The size of the company and production depend on your level. You can only build a small farm at startup. That number continues to grow with you, at most at 14 farms for players at level 55 or higher. Outside the fight, many actions in Monster Legends involve waiting. Building a new building, raise two of your beasts or waiting for an egg at the door having a countdown timer. Stronger is the monster or the most complex architecture, longer waiting for an egg at the door having a countdown timer. Stronger is the monster or the most complex architecture, longer waiting. The game offers a way to accelerate things if you are willing to break on some virtual dough. It is a senior spending gold and gems rather than facing downtime, especially early in the game. However, you will need that booty later as the question increases, and everything becomes more expensive. Save your money. That fake tenfold contentation while left unless you are sorry to spend real life money to buy Gem Pack from the game store. In this case, patience may not always be a virtue. Cleaning is boring! Whether your room, laundry or anything else, this task is nothing but a job needed. The last thing you want to do when playing a video game is clean. In Monster Legends, however, you should feel different to straighten around the house ... Err, Island. Using workers to clarify bushes, rocks and trees provides more space to erect habitats, farms, temples and other important buildings. This is not the only advantage of cleaning your island. You will earn XPÃ ¢ for each natural impediment removed. Thank you for letting us know! Tell us because! Because!
