This day of memory, we will remember this week of awareness, we want to highlight the fantastic work of the settings in our rural respect difference program using Makaton. All RRDp settings are currently working on a variety of good relationship themes through shared Northern Ireland projects and southern border counties. Children in the playgroup country, Little Stars Inschool and Glenarm Community Community Preschool have fun learning Makaton in your settings and will soon be reunited, through use, for joint makaton sessions using their new skill.Å ě Karen McCormick, Leader in the small stars told us, [Å ě à ~](#) "Children love the program And learning so much; they are already able to ask for their favorite fruits at the time snack, signing the days of the week and learn the nursery rhymes. Makaton is fantastic not only for deaf children but also for our non-verbal children or those struggling with communication. The use of Makaton in our approach allowed children to develop new linguistic, social and communicative abilities. As part of the program of Rural respect difference, we learned that some people are different because they may not be able to listen or speak, but this new language of the signs we have learned allows us to communicate with each other. Children really live learning and use it and are very eager to learn new signs.
