What is more fun than living in a dream world where the famous singers are your neighbors or you can create more crazy relationships in life through the life of Tomodachi. At the beginning of the game, you will be brought to an anonymous island and only you can naminare it. Then you will be customized for yourself, perhaps similar to you in real life or even lice just like your idols. You will then be moved to an apartment and you will start a completely new life. Every character of the game will have a unique personality, which is really interesting, you can buy clothes, houses or food for them, some may like them, but some are not. You have to take care of every citizen, buy medicine for them when you are sick, or reconcile when they quarrel, etc. Every time you help someone, you will put the quantity If you think everything, now the best part, you can make other characters look like they are Like you, then you can do anything to even create your own idol, so marriage and childbirth. With simple 2D graphics, but the way to play is extremely creative and fun, what are you waiting for without participating in the perfect world created by yourself. Nintendo has long been a name known in the handle console market and received a lot of attention from players for their products. In the past, it could come to Gameboy, Newer is Nintendo 3DS is one of the devices that many people appreciate. This has a lot of technology integrated into the device to make the game more interesting. Technology is not the only thing that made the game's success. Furthermore, the game is a new new title released for this platform. But most of the games released are in the adventure genre, RPG for players to experiment. But among dozens of titles, there are still some games that emerge due to their differences so that players can choose. One of those unique games is the life of Tomodachi, a game that simulates a person's life. This game is a lot of fun for players to choose to play. Before starting the game, the player needs a character to be able to check and use. The game will give the players the ability to customize the character in any way they like. Once you have a character, the player can become a citizen of an island and start a new game here. Not only can the character be customized, but the player can also customize the size of the apartment the player is going to make it big or small. If it's too big, the player can look for another friend to stay at home. Whenever a player creates a character, he gets a QR to mark that character. So if the player changes to another device, you can use that QR code to scan and continue with the You created. One of the exciting features of the game is to allow players to customize the voice of the game to make it more interesting. Players can customize before it's the voice, it can be being Youth, seniors or adults. Imagine what happens when a man with a muscle body who owns a girl's voice will certainly be interesting.
