The best public universities are often ranked next to private colleges on the lists, but these publicly funded schools can be overlooked for the prestige of private schools. No matter what program you're following or what your dream career is, the best public universities can help you get there! In this article, we will discuss what a public university is and our ranking of the top state schools in the United States, combining the criteria of a variety of lists. Ready to learn why a public college can be the right choice for you? Keep reading! What is a public university? Public universities have a lot to offer to all kinds of students. These schools are the ones that receive public funding, usually through a state or national government. This means that tuition fees are generally lower than at private universities because much of the college's operation is paid for by the government rather than by the students attending. Many of the best public universities are historic universities created to provide education to people living in the surrounding areas, which is why you often see discounted courses or even scholarships or self-admission opportunities for students living in the state. Public universities are also generally larger than private schools, with tens of thousands of students rather than a few thousand. We often see private colleges approaching the top of university rankings such as US News, partly because of their selectivity. Typically, state schools are able to admit many more students, which means they have lower standards and higher admission rates. Because the academic stamina of university students often plays a strong role in its ranking, the more selective schools such as Harvard or Yale often reach the highest places on these lists. But a public school education can compete with that of a private school, depending on which characteristics you give priority as a student, and many of the best state schools also reach the top of the ranking, even though they are not as selective as private schools. Public schools offer students a variety of great features, including lower classes. Many students prefer the large, diverse student bodies of the best state colleges to the smaller student bodies of private schools. Public universities also tend to have many, many academic programs and student activities, as well as strong athletics programs. Beyond the university experience, public schools also tend to have work connections with local businesses as well as campus employment. If finding a job at a local company is a for you, you can consider whether the companies you are interested in have a high number of pupils from nearby public colleges! AndrewHorne / Wikimedia Commons The 20 best public universities Classifying the best public universities is a difficult task. Each website has its own criteria, with some evaluating rigid statistics and some who prefer student testimony. US News in particular places a strong emphasis on student retention rates and Bachelor's degreejob placement and postgraduate salaries. Moreover, students do not weigh surveys, which have a more subjective view than the quantitative information on which or news bases their surveys. The list of the best colleges of Forbes or different tactics. This list gives priority to the success of students, so it characterizes things like the graduate rate of a school and postgraduate occupation. In this case, Forbes uses salaries, high rank positions and rewards as determining factors for success. A small percentage of the ranking is derived from student surveys. Niche has another popular list of the best public universities, and tends to foster the experience of attending a college. To determine the experience, the site uses student surveys to classify features such as campus, diversity and party scene, which give a different view of a college than Forbes and or news. To create our ranking of the best public colleges, I oated a mix of niche rankings, Forbes, and or news . The schools that included in the top 20 of the three lists received a great boost, and I particularly considered schools with higher degrees of average and financial aid offers. I also considered the investigations of the pupil of the place, as these characteristics are probably the things that students are weighing in their university decisions. In addition to the number charts, each of these top public universities contains a fragment of college information collected from student reports to give you a better idea of how to attend that school is like attending that school. #1: university of California - los angeles acceptance rate: 12% graduation rate: 79% In-State tuition: \$13,226 financial average: \$21,402 The University of California "L.A. is a college first in almost all charts. This is partly due to its selectivity, but also to the fact that you have earned the reputation of helping students find great careers after graduation, with a student-faculty ratio of 18:1, the size of the UCLA classes are smaller than many public universities. Apart from its academics, UCLA is known for its achievements in the athletics and its beautiful campus, with warm climate all year round and rapid access to the ocean. #2: university of Michigan Ann Arbor acceptance rate: 23% graduation rate: 80% In-State tuition: \$15,948 financial average: \$21,665 like many public universities, the University of Michigan "Ann Arbor is known for its large student body and for an incredible number of programs, internships and organizations on campus, which is also recognized as one of the 20 best research universities with some of the best graduate programs in the United States. Students who love their undergrad experience also be interested in taking advantage of college graduate school. #3: University of North Carolina - Chapel Hill Acceptance Rate: 23% Graduation Rate: 84% In-State Tuition: \$9,021 Media Financial Help: \$16,893 The University of North Carolina «Cappel Hill» is known for having a composed student body students led to the search for an academic challenge. The college offers programs in a wide range of fields, as well as strong sports teams. It is also smaller than many other public schools, with a student-faculty ratio of 14: 1, giving it an intimate feeling. # 4: University of Virginia Acceptance Rate: 24 percent Degree rate: 89 percent Rate in status: \$ 18,878 Average financial aid: \$24,726 The University of Virginia is known for its strong and active department of athletics, as well as its strong sense of student pride. However, the sense of fun does not exceed academics, students of the University of Virginia students cited the intellectual community of their school as a large part of what they love to attend their college. Karen McCluney / Wikimedia Commons # 5: College of William and Mary Acceptance Rate: 38 per cent Degree rate: 85 percent State rate: \$ 23,362 Average financial aid: \$ 18,946 The College of William and Mary is smaller than many public colleges and surroundings The area has more than a feeling of small city than other campuses. But despite its size, the College of William and Mary has a different student body and many campus events, as well as the oldest honor code in the United States. Like many other colleges in this list, William and Mary are often considered a "public Ivy", which means that it attracts high-success students, great faculty and provides an educational experience like what you will find in an Ivy League College. N. 6: Georgia Institute of Technology ACCETTATION Acceptance rate: 21% Degree rate: 46% Rate in status: \$ 12,682 Average financial aid: \$8,821 The Georgia Institute of Technology (or Georgia Tech) is known to be an academic research university. Students have a lot of school pride and evaluate the long-standing traditions of college. Its large campus and spacious living room are not in conflict with its smaller and tight-knit interior communities - students enjoy the freedom to be part of a large student body and friendships formed in their programs. College is very classified in stringent fields such as engineering and graduates enjoy a high average salary. # 7: University of California - Santa Barbara Rate accepted: 30 percent Degree rate: 70 percent Rate in status: \$ 14,391 Average financial aid: \$ 21,037 One of the University of California - the most important features of Santa Barbara is its proximity to the beach. UC Santa Barbara is known for its beautiful location and flourishing social life, with a reputation as a holiday school. However, students say that his reputation is a bit too much overblown, and that his strong academic programs - especially engineering, biology and marine biology "are just as for their university experience. #8: University of California - Berkeley Rates accepted: 17 per cent Degree rate: 76 percent In-state rate: \$ 14,226 Average financial aid: \$22,420 The University of California - Berkeley has long been associated with a politically active student body, but they're also to have many Nobel prizes among their teachers and a number of high-ranking programs. Berkeley is a great school with lots of resources, including many different academic programs to choose from. # 9: University of Texas Austin Acceptance Rate: 32% Graduation Rate: 66% in-State Tuition: \$ 11,106 Aid financial year: \$ 9,343 The Texas Austin university is known to have a unique student body with lots of friendly students . The surrounding area of Austin has a lot to offer, including Festivals such as South by Southwest and many different gastronomic options. The university of Texas is also famous for their student pride; Many students say they feel a profound sense of connection and pride in their school and other students. The University of Texas automatically accepts 7% of the high school graduates of Texas, and almost 90% of their students are resident in Texas. Because of this policy, it can be more difficult for students outside-state to enter UT. Austin; Make sure your votes and scores are of first order if you are an out-of-state student who wants to participate! # 10: University of Florida Acceptance Rate: 37% Graduation Rate: 67% in-State Tuition: \$ 6,380 Financial Media Help: \$ 8,144 Florida University is considered one of the most convenient top 50 schools, especially thanks to its limited fee . Despite the large number of students, the campus is known for its sense of camaraderie and for its combined community, underlined by an intense sense of school pride. Coxonian / Wikimedia Commons # 11: University of the Georgia acceptance rate: 46% Degree rate: 66% in-State Tuition: \$ 12,080 Medium financial help: \$ 10,009 The Georgia university is famous for its strong soccer team. But the college also has much more to offer to its students. Being a great campus, there are many different attitudes and beliefs throughout the student body, leading to a flourishing student culture. Less known is the musical scene of Georgia's university. atene has a rich musical history, and every year it organizes a three-day music festival called Athfest to celebrate it. # 12: University of Illinois - Urbana-Champaign AccepTance Rate: 59% Graduation rate: 70% in-State Tition: \$ 16,862 Financial Media: \$ 17,015 The University of Illinois - urban Champaign is another school often acclaimed as a public Ivy. His strong engineering, computer science, physics, civil engineering programs, economics and history attract students from all over the world and, at different times of their lives, the student body includes a mixture of students just out of high schools and elderly people who wish Study a new matter. His beautiful, historic campus has many activities to offer, and the school also boasts the largest public university library in the United States. # 13: University of Washington Rate: 52% Graduation Rate: 66% in-State Tuition: \$ 12,092 Financial Media: \$ 16,746 The The Washington is known for its strong medical school, computer science and engineering programs. Located in Seattle, the Grande Campus has plenty of study areas and is surrounded by activities, shopping and excellent restaurants. UW is known to be an academically demanding school, attracting students from all over the world with a diversity of interests. Despite having a large student body, UW had many small communities to be a part of, giving him a closer sensation-knit. There are also two satellite campuses in Tacoma and Bothell, which offer an equivalent education for a lower cost. # 14: University of Wisconsin - Madison Acceptance Rate: 52.6 percent diploma rate: 83.7 percent Tuition in state: \$ 10,488 Medium financial help: \$ 14,043 The university of Wisconsin - Madison is known as a strong research university - It is classified 8th in the world for its scientific research by the National Science Foundation. The Undergrad program is particularly known for its biochemistry and genetics departments, and even its party atmosphere. But the students of the university of Wisconsin are also guided academically, with many different interests and more small communities within the biggest student body. # 15: United States Military Academy Acceptance rate: 10 percent Diploma rate: 80 percent Tuition in state: \$ 0 Media of financial help: N / A The United States Military Academia is a very different experience from others in this list. The Academy is intended to form future military officials, and, in addition to its rigorous academic program, it also requires students to participate in military activities such as gears and physical training. As such, it is more niche than many schools, but for those interested in military and discipline training, it is a strong choice. Although the acceptance rate is low, the recta is free, paid for military service rather than money. The school has a great academic reputation and can lead to a long-term military career. Eric T Gunther / Wikimedia Commons # 16: Virginia Tech Acceptance Rate: 70 percent Graduation Rate: 65 percent in-State Tuition: \$ 13,749 Medium financial help: \$ 8,009 Virginia Technology is known to be strongly academically, particularly in its departments of engineering and business. In fact, it's one of the best 50 research universities in the United States! But beyond academics, Virginia Tech has some other important features, like its great food. Niche classifies the number two colleges with the best food, and many students mentioned its kitchen as a particular draw. # 17: Pennsylvania State University - University acceptance of the Park: 49 percent Diploma rate: 68 percent Tuition in state: \$ 18,459 Medium financial help: \$ 7,528 Pennsylvania State University - University park is known for its programs from as well as agriculture, education and also musical theatre. One of his biggest sales points is Schreyer Honors College, which accepts about 300 students a year, and Schreyer scholars are More than 7.9 million dollars in scholarships and scholarships every year. Students in this program live in a separate dormitory and are given access to programs and funding studies abroad, early registration for courses, and over 200 courses of honor that allow them to pursue a degree and a master at the same time. Penn State also boasts a top-20 soccer team for those interested in college athletics! # 18: University of California - Davis acceptance rate: 39 per centotraduation Rate: 63 percent Tuition in state: \$ 14,653 average financial aid: 18,987 California university - Davis is another college often called Ivy League Public. It has a strong academic focus that is well balanced with fun, especially because the campus is located in a smaller city with neighboring cities. The campus itself is beautiful, and the nearby Arboretum gives students a natural environment to escape if they wish. There are a lot of stage opportunities available for interested students, giving them a jumpstart in future careers. # 19: Purdue University - West Lafayette Acceptance rate: 60% Diploma rate: 59 percent Tuition in state: \$ 9,992 Medium financial help: 1,997 dollars Purdue University - West Lafayette is in a smaller city, but This does not limit the quantity of things to do. The campus is great, but the surrounding area and the narrow community-knit give more than a small city feeling that some of the big colleges in this list. Purdue also offers free bus trips to students so that no car students can experience the largest West Lafayette area. On-campus, there are a lot of jobs and research opportunities to exploit, and the school is known for the strength of its engineering program. # 20: University of California - Irvine Acceptance rate: 27 percent diploma rate: 69 percent Tuition in state: \$ 20,935 Medium financial help: \$ 23,973 California university - Irvine is sometimes neglected in favor of Other Luxury Schools of California, but, as part of the UC system, UC - Irvine is still a great college. This campus is known for its academic force, but also its beautiful location and beach access. It has a more relaxed atmosphere of other schools, but it is also known to be more scholar than party-oriented. Suggestions for the application to the best public universities Although public colleges often have higher acceptance rates than private colleges, this does not mean that they will automatically be easy to enter. Like all colleges in your list, you want to put time and effort in choosing the best public universities for you. When you apply, keep these suggestions in mind: many students have their views set on Ivy Leagues, but this does not mean that you should treat public colleges like nothing more than fallback plans. Although a public college is not your first choice, remember that these colleges still provide a good education and wonderful career opportunities for dedicated dedicatedWhen applied to public colleges, everyone comes as if it were your dream school. Put the effort in the search for things that make them unique and really enthusiastic about the potential to participate. Don't feel like a public college is settling, because it doesn't have to be! Your public research schools share many features - large student organisms, diversity of programs, lower lessons "but each is different from the rest. While you are putting together a list of college, look at what each school has to offer. What they say Students attend? The campus is small or large? There are many activities nearby, or is there in a small city? Pay attention to things like the size of the class, the degree rates and the average starting salary. These They can be indicators of the academic rigor and the success of the students, which can give you some intuition on what you can expect for your life after graduation. The college is lined up with your expectations? The students of your desired program end up in places you would like to finish? This type of research requires time, but helps you make better decisions about which schools to apply. Consider a variety of factors that is i The academic force of a college, but there is more college choices than those. Think of things like the size of the class, which clubs are available, whether the colleges who are candidates in small cities or great city, even what kind of architecture have. These things might seem that they will not be important, but when they spend four or more years there are! No matter how unusual desires may seem, it is worth considering. If you want to go to the college on the beach, look for the universities on the beach! If you want small sizes, look for universities with low student faculty reports! There are so many potential schools outside that it is worth doing the research to find what they fit better, even if these factors sound less important to others. What's next?
