Vice. At Metacritic, which assigns a normalized rating out of 100 from mainstream publications, the album received an average score of 58, based on 16 reviews.[14] For The A.V. Club, Colin McGowan praised Kanye West's "lavishly triumphant production" on songs such as "White Label" and Nas' political awareness on "Cops Shot the Kid" but observed filler in the "empty empowerment" of "Everything" and the "late-90s jiggly rap" of "Bonjour"; he concluded that Nasir was a less-than-definitive experiment for the rapper.[16] Elizabeth Aubrey of NME wrote: "Whilst stylistically Nasir may well have plenty of strong moments, its contradictions make it a difficult, problematic listen: it's the silences on here which so often deafen." She praised West's production and the album's brevity, as well as Nas' lyrical maturity and social awareness, however noted that the political beliefs shared sometimes "ring hollow", being at odds with views shared by West. She also believed the rapper's male gaze of women conflicted with the album's underlying theme of equality, while failing to address allegations of abuse by Nas' ex-wife Kelis: "It's a deeply troubling conflict on an album that manages to be so successfully woke on one level and yet so blatantly archaic on another".[21] Alexis Petridis of The Guardian praised West's production and Nas' tackling of social justice issues but also criticised Nas for not addressing domestic violence allegations, as well as for the "mercurial" nature of his lyrics stating "[Nas] rhymes shifting from acute, powerful indictments of racism to stuff that makes no sense, or seems to be there purely for the purposes of provocation" and describing some of the themes as "conspiracy theories".[18] In a review for Rolling Stone, Paul Thompson described the album as "a frustrating listen, with glimpses of greatness".
