My daughter has followed those results that I don't know why I wanted me to answer me because it is 6 years old hello, I don't know if someone could drive me, towards about 2 weeks I felt bad, he gave me diarrhea continuously, I went to dr. Currently the best treatment is to reconstitute the liquids and wait, because it is only cared for. And how good it is, the typhus 0 and h is, so that you understand it, as a sort of bug identity card in question, in this case it is a salmonella types, and that identity card that it also has part of the mechanisms those bacteria must cause diseases: diarrhea, fever and snot in stool. Hi, my name is yesterday Joel Ramos I take some exams and even if the doctor told me I had nothing to know if it's true since I feel very tired of these were the results. Reply to the Edit Estimate Delete in my case, since I started working in a clinical analysis laboratory, I started having the Tafof Tuttoists "O" and "H" in addition to the Proteo Ox-19 in 1: 320 without having any symptom.
