

UF received several awards near the end of the year through the National Science Foundation's RAPID program to address COVID-19. Researchers associated with UF's Emerging Pathogens Institute received a \$104,000 RAPID grant to study ways to use nanotechnology to kill virus particles on personal protective equipment. A team of electrical and computer engineering researchers was awarded a \$185,000 RAPID grant to support development of a low-cost smart multi-patient ventilator system. And the College of Medicine's Department of Pediatrics received nearly \$1 million from the Federal Communications Commission to expand telemedicine services and equipment among underserved and vulnerable populations during the pandemic.

Biostatistics Assistant Professor Natalie Dean became a leading voice in explaining everything from infection rates to vaccine efficacy.

\$50 million in gifts from UF alumnus Chris Malachowsky and NVEDIA, the computer graphics company he co-founded, are the cornerstone of UF's major artificial intelligence initiative, which will include the most powerful AI computer at any university in the nation. UF had many other AI-related projects funded in 2020, including nearly \$800,000 to use AI to reduce the amount of weed killers needed to maintain fields and \$302,000 to study radio waves in the ionosphere.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Yusen Logistics Co., Ltd.:

We have audited the accompanying consolidated balance sheet of Yusen Logistics Co., Ltd. and consolidated subsidiaries as of March 31, 2012, and the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in conformity with accounting principles generally accepted in Japan, and for each internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in conformity with auditing standards generally accepted in Japan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entry's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entry's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Yusen Logistics Co., Ltd. and consolidated subsidiaries as of March 31, 2012, and the consolidated results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in Japan.

Convenience Translation

Our audits also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 1. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.
