Show More If you're into games of the likes of PlayerUnknown's Battlegrounds, this game developed by Elex for Android is just what you're looking for. Last Battleground: Survival is a Battle Royal survival game in which you'll be parachuted onto a desert island. Your goal is to survive, but that's also the target of the other contestants, and there can be only one, just like in Highlander. Battle Royale style game in which 32 players are left stranded on a desert island. Kill them all The gameplay is really simple: become the last survivor on the island. For such purpose, you'll have to develop your best strategy to go unnoticed whilst you try to wipe out all the traps, threats, and enemies. But it won't be easy, you'll arrive on the island without absolutely anything, having to find weapons and supplies. You'll be able to get hold of all sorts of tools, from guns, ammo, and improvements for your weapons, to clothes and protective equipment. One of the best things about this game is that if you get hold of a heavy weapon, it's so realistic that your character will move around slower. The same goes for the sound effects as any noise can reveal your position to a nearby enemy. Find a weapon and supplies as soon as possible and remain within the safe zone, wiping out all your enemies until you're the last person standing! Another danger is also the Safe Zone, a kind of blue dome that will get smaller and smaller as time goes by. If you're caught outside, you're dead. This area changes in each game, so don't get too comfortable. Up to 32 players can face each other in each game with realistic 3D graphics. But you won't be able to play offline as it's a real-time multiplayer experience. Last Battleground: Survival is still in its initial stages with lots of work ahead but you can already start playing. App market for 100% working mods. Accelerated for downloading big mod files. What is HappyMod ? How does it work?
